

We're looking for a Junior Designer to join our growing agency.

Salary **Dependent on experience**

Term **Initial 2-year contract**

(Potential of permanent role on completion)

Based in the heart of Leamington Spa, we're an award-winning agency, where a vibrant team of talented and enthusiastic individuals utilise the power of collaboration to unlock client's potential.

This is the perfect position for a designer looking for their first agency role, who is interested in all things design, including digital marketing, brochure design, direct mail, point-of-sale creation, advertising concepts, logo design and brand identity systems, animation, social media, infographics and much, much more.

Job Description

As a Junior Designer at Denfield, you will be initially entering a two-year contract designed to give you a solid foundation within a studio that will allow you develop your skills and set you up for your design career.

Your core responsibility will be supporting the studio team by amending and artworking existing designs. There will also be opportunity to create your own designs in the support of larger projects. You will need to be fast-thinking and able to multi-task, as your day-to-day job will be working on many small projects for which you will need to switch between as required. In every way, you will have one of the most critical roles in the agency, ensuring that we deliver to our clients the core marketing assets that help keep their businesses running!

Education and Experience Requirements

- Degree or college qualification in a related subject
- Experience in a similar role, this could be in another agency, in-house, freelance, work experience or internships

Culture and Benefits

- Enjoy team-building activities on the last Friday of every month
- Opportunity to grow your own role
- Breakfast provided every morning
- Unrivalled agency community, with down-to-earth, helpful team mates
- Don't work your birthday!

Junior Designer Skills

- Experience with the Adobe Creative Cloud software, in particular; InDesign, Photoshop and Illustrator. Basic knowledge of Microsoft Office. Previous experience with Adobe AfterEffects and Animate would also be beneficial, although not essential
- Work well under pressure
- Highly motivated
- Exceptional attention to detail
- Work well with a team
- Ability to understand and apply style rules and standards for a variety of clients
- Keen to learn new skills
