

Data Engineer

Location: **Leamington Spa**

Reports to: **Managing Director**

As a data engineer you will be part of the team developing new products to deliver real value to automotive organisations through data and insights.

Key responsibilities

- Designing and improving data models
- Building and maintaining data pipelines using Azure Data Factory
- Developing integration components utilising Logic Apps, Azure Functions and others
- Model, build and maintain the SQL data warehouse
- Work with clients to understand their needs and help to build these into the wider product roadmap
- Onboard new clients onto the platform
- Continually bring new ideas and innovate on the use of analytics technologies to deliver ever-increasing value to our clients
- Design, build and maintain Power BI dashboards
- Provide support as necessary to Accounts teams and clients
- Deliver client demos as required
- Communicate complex MI to a non-statistical audience, present conclusions from analysis to enhance decision-making with stakeholders.

Requirements

- Previous experience of an analytical or insight role
- Experience with Power BI is essential including -
 - Modelling
 - DAX
 - Security
- Experience with MS Azure Logic Apps
- Experience with MS Azure Data Factory
- Knowledge of SQP (not admin-focused) i.e. the ability to write queries and interrogate database
- Excellent analytical and quantitative skills
- Degree in mathematics, statistics or other related field or equivalent
- Good understanding of machine learning
- Strong Excel skills
- Experience of providing insights-based analysis
- Experience in data modelling/architecture
- Excellent communication skills.

Person specification

- A self-starter who can prioritise and project-manage and enjoys problem-solving
- Is happy to work independently as well as part of a team
- Has strong attention to customer detail and is focused on ensuring excellent customer experience
- Has the ability to and enjoys the challenge of troubleshooting
- The ability to manage their own workload in this role is essential, alongside the ability to adapt to a varied workload
- Exhibits a flexible and can-do attitude to problem-solving using their own initiative
- Excellent interpersonal skills and ability to communicate effectively
- Be professional and organised and always represent the company in the best way possible
- Meticulous attention to detail, ensuring that all activity agreed to in plans is executed in a timely manner.

This is an exciting opportunity to grow your own role within a fast-paced agency.
